

U.S. PRECIPITATION RANKINGS

Climate Division Data from 1895-2000 (105 years)

December 1999 to February 2000

LEGEND

Extremely Dry (Less
than 10th Percentile)

Dry
(10-30 Percentile)

Near Normal
(30-70 Percentile)

Wet
(70-90 Percentile)

Extremely Wet
(Greater than 90th
Percentile)

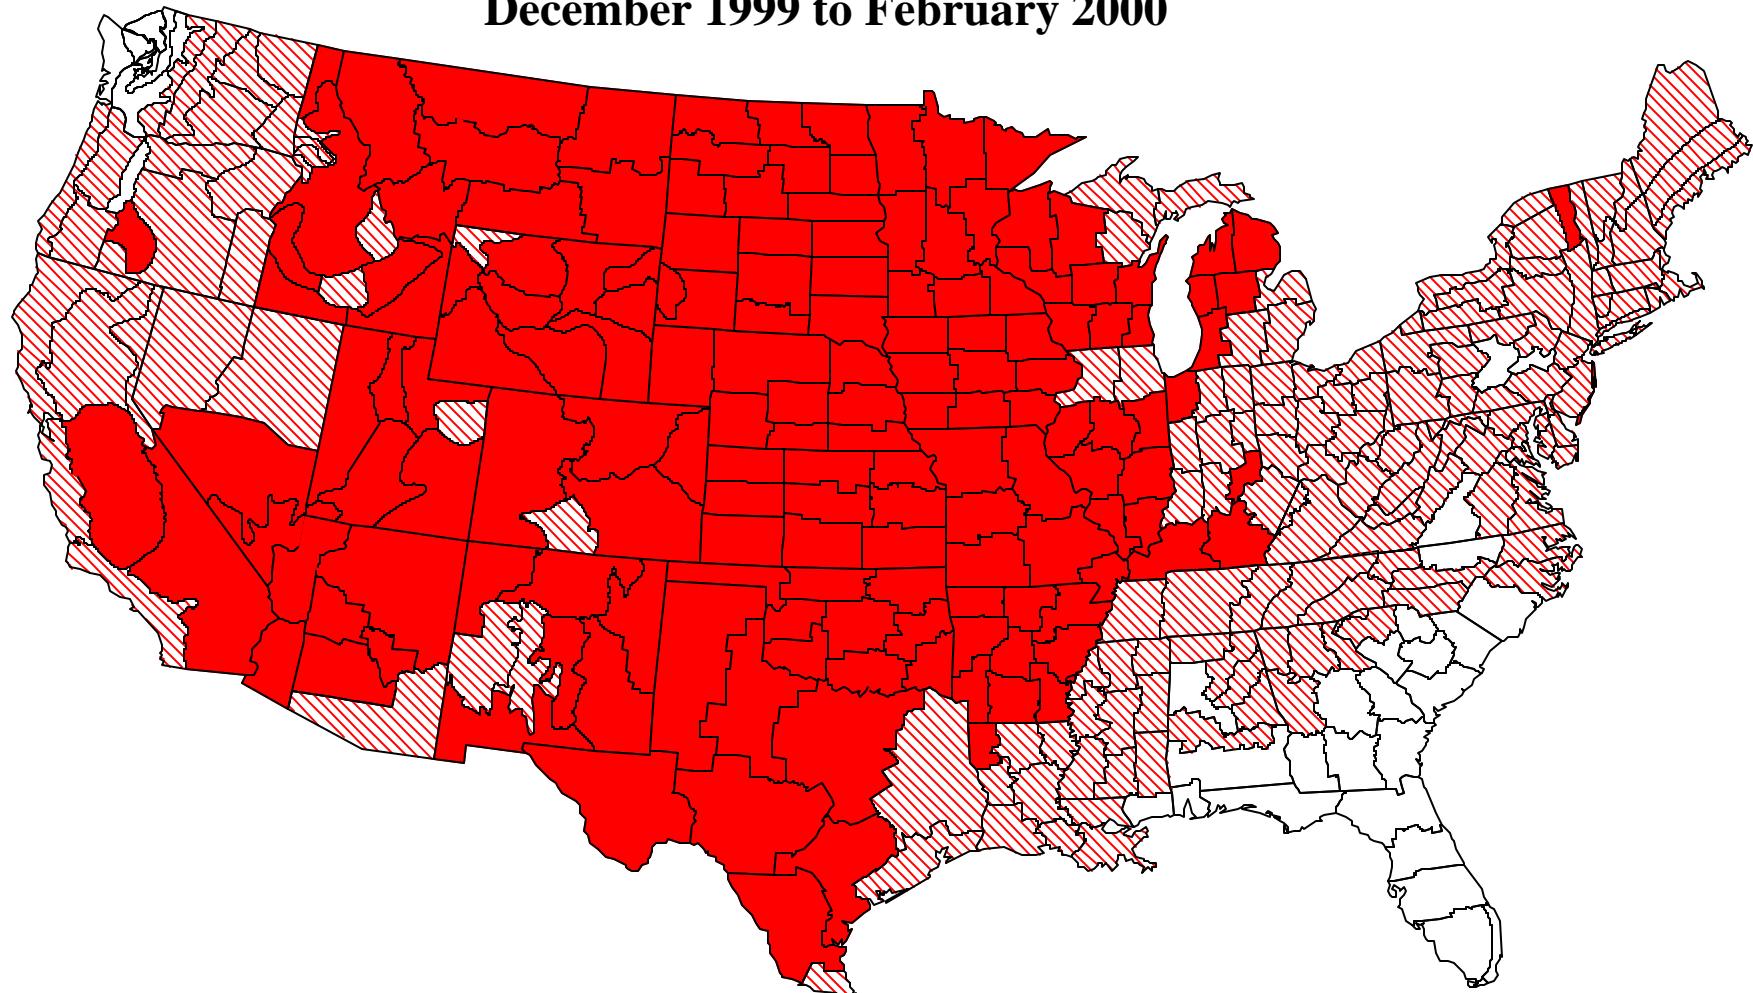

World Agricultural Outlook Board
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center
(NCDC) and is subject to revision.

U.S. TEMPERATURE RANKINGS

Climate Division Data from 1895-2000 (105 years)

December 1999 to February 2000

LEGEND

Extremely Cool (Less
than 10th Percentile)

Cool
(10-30 Percentile)

Near Normal
(30-70 Percentile)

Warm
(70-90 Percentile)

Extremely Warm
(Greater than 90th
Percentile)

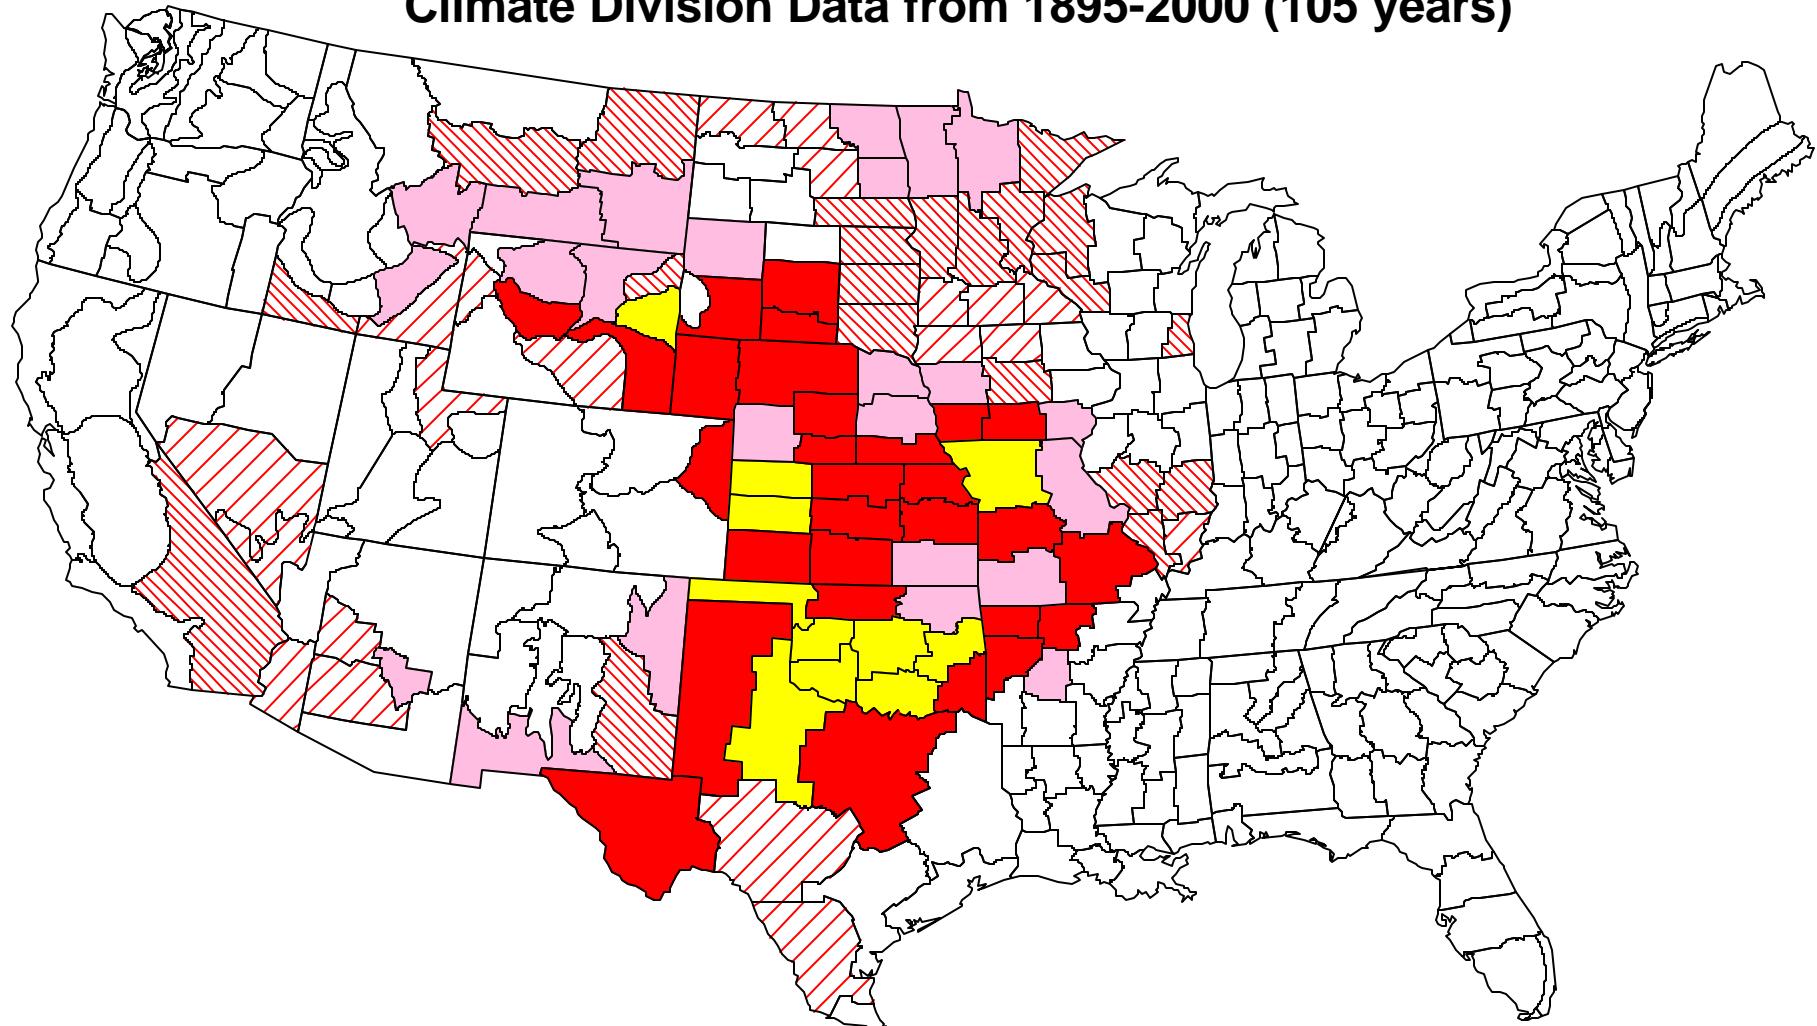

World Agricultural Outlook Board
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center
(NCDC) and is subject to revision.

TEMPERATURE RANKINGS

Warmest Divisions on Record for Dec 1999 to Feb 2000

Climate Division Data from 1895-2000 (105 years)

LEGEND

- | | |
|-------------|--|
| WARMEST | |
| 2ND WARMEST | |
| 3RD WARMEST | |
| 4TH WARMEST | |
| 5TH WARMEST | |

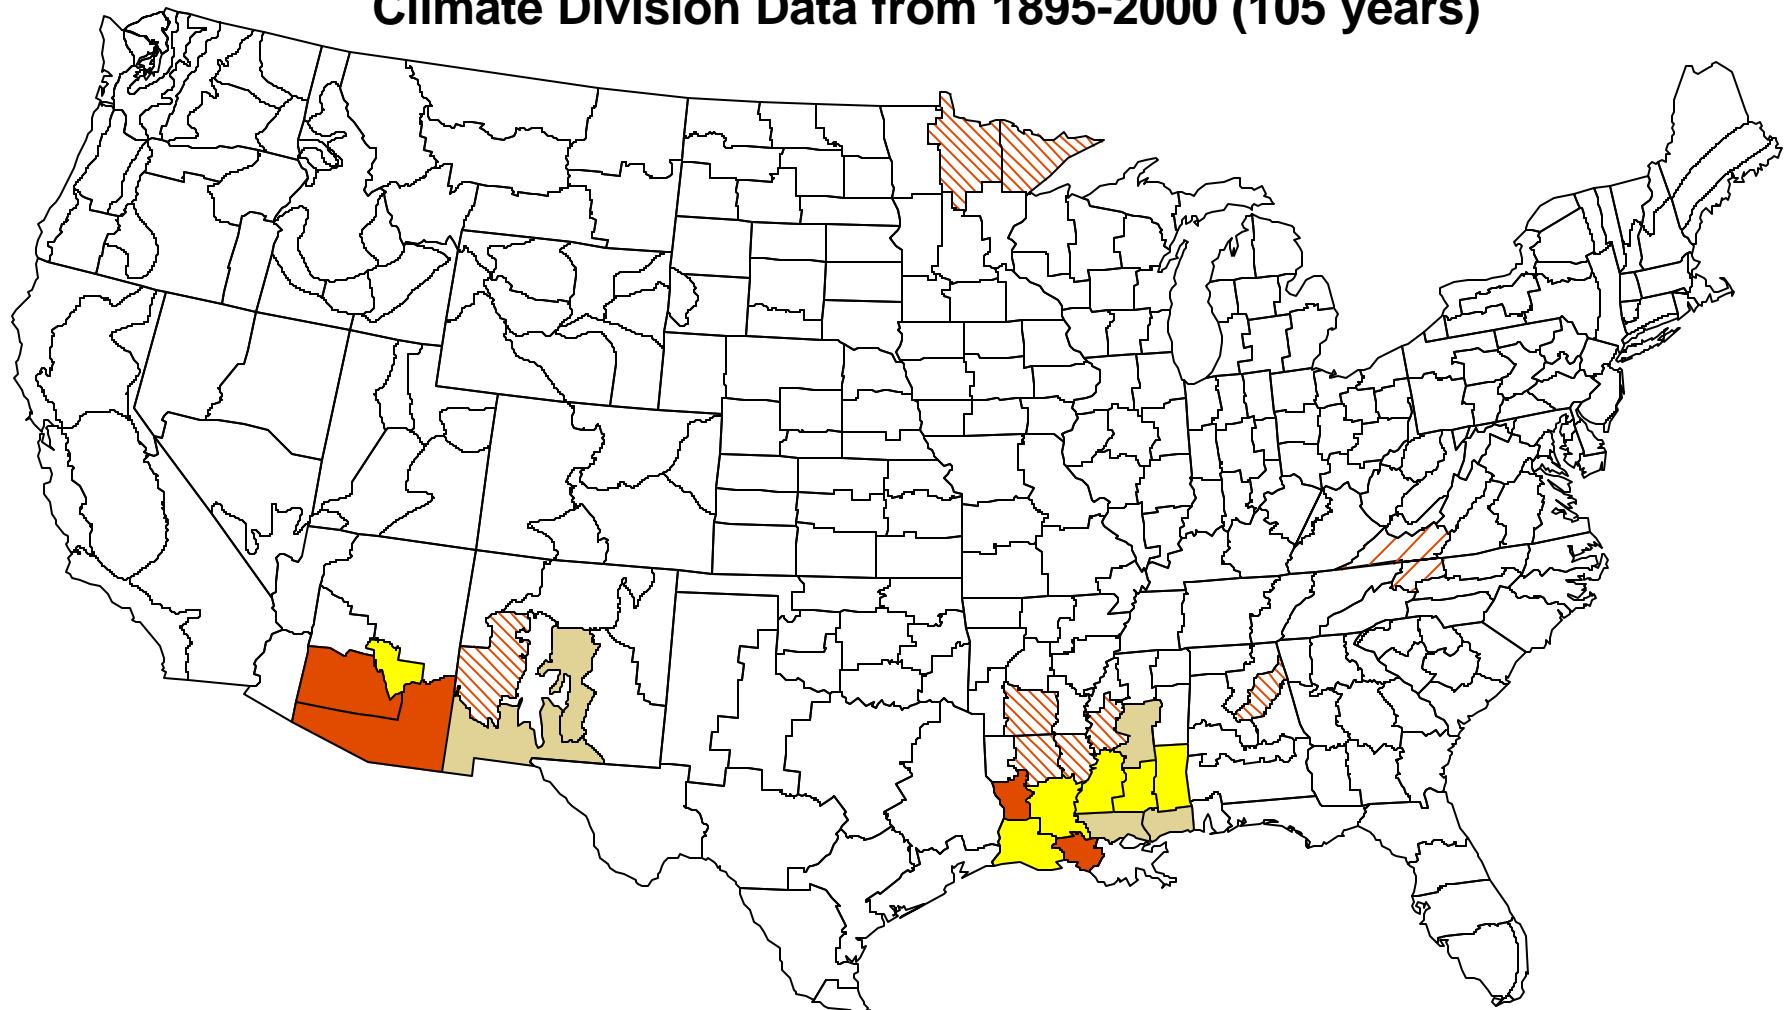

World Agricultural Outlook Board
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center (NCDC)
and is subject to revision.

PRECIPITATION RANKINGS

Driest Divisions on Record for Dec 1999 to Feb 2000

Climate Division Data from 1895-2000 (105 years)

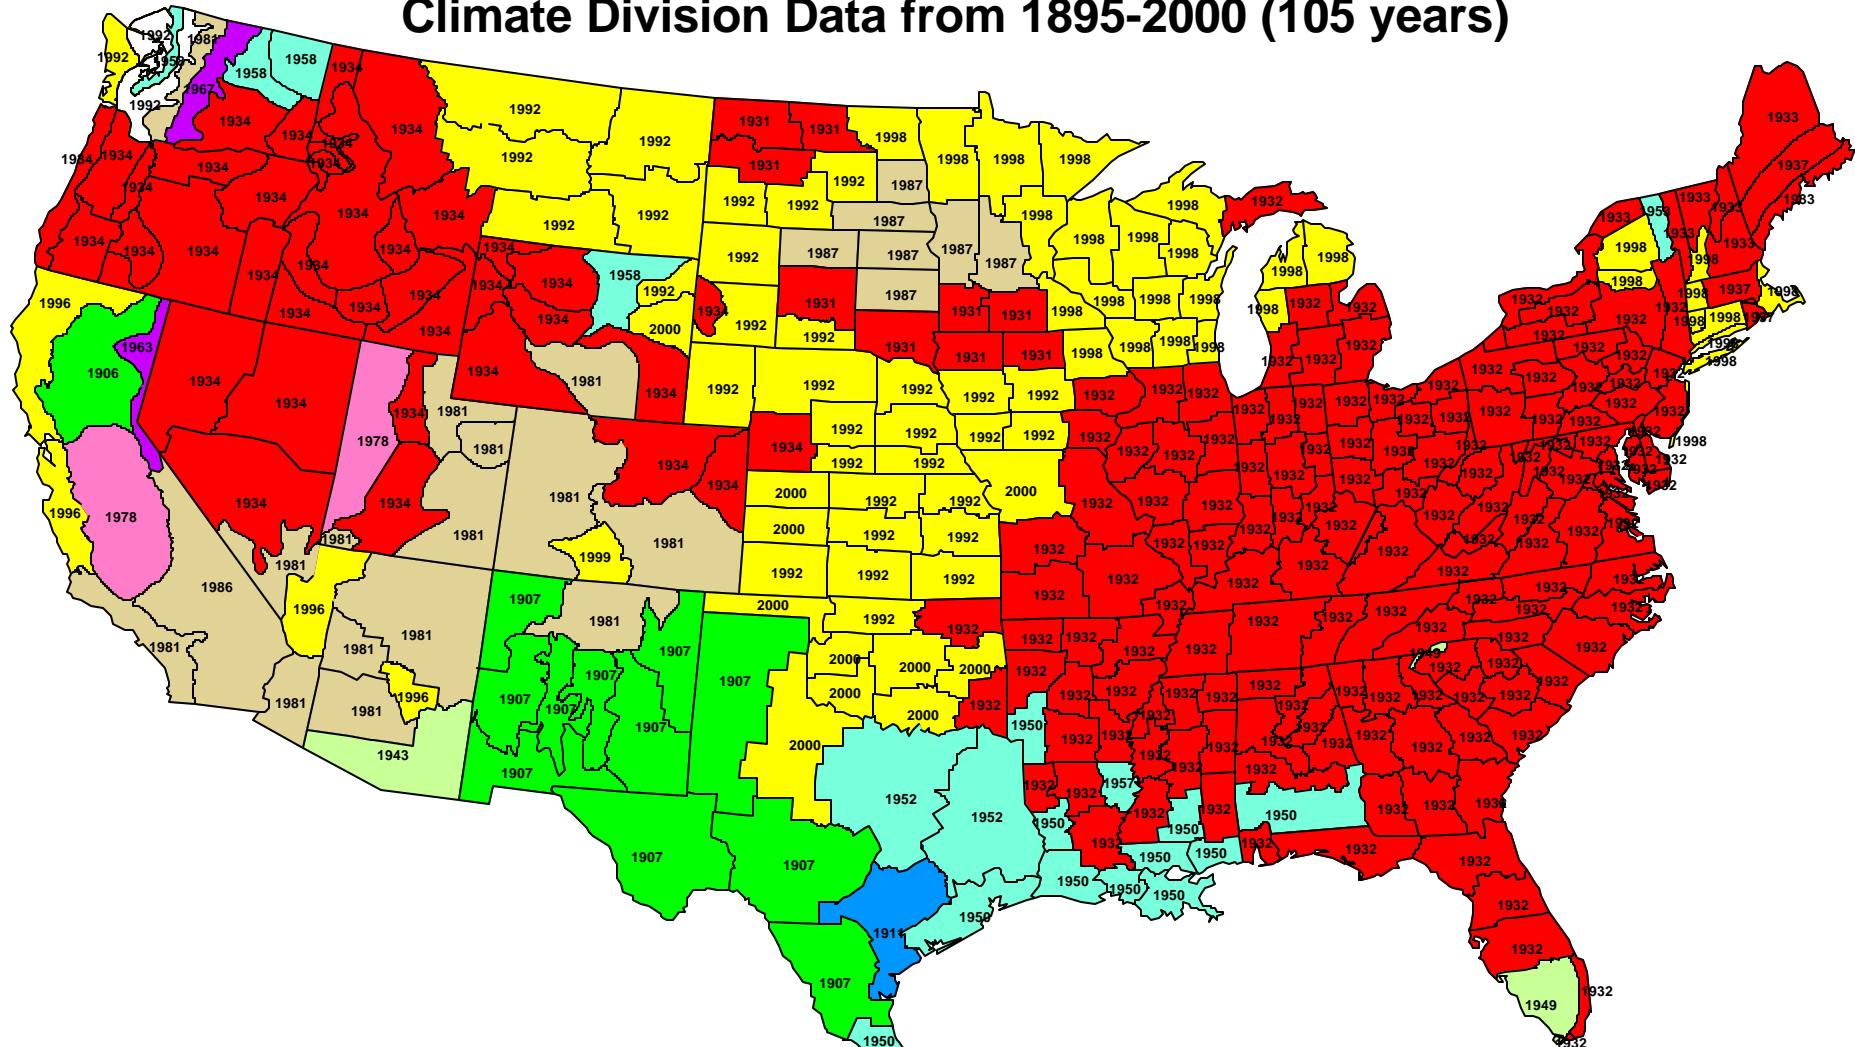

World Agricultural Outlook Board
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center (NCDC)
and is subject to revision.

WARMEST YEAR (Dec - Feb)

Climate Division Data from 1895-2000 (105 years)

LEGEND

	1895-1909		1920-1929		1940-1949		1960-1969		1980-1989
	1910-1919		1930-1939		1950-1959		1970-1979		1990-2000

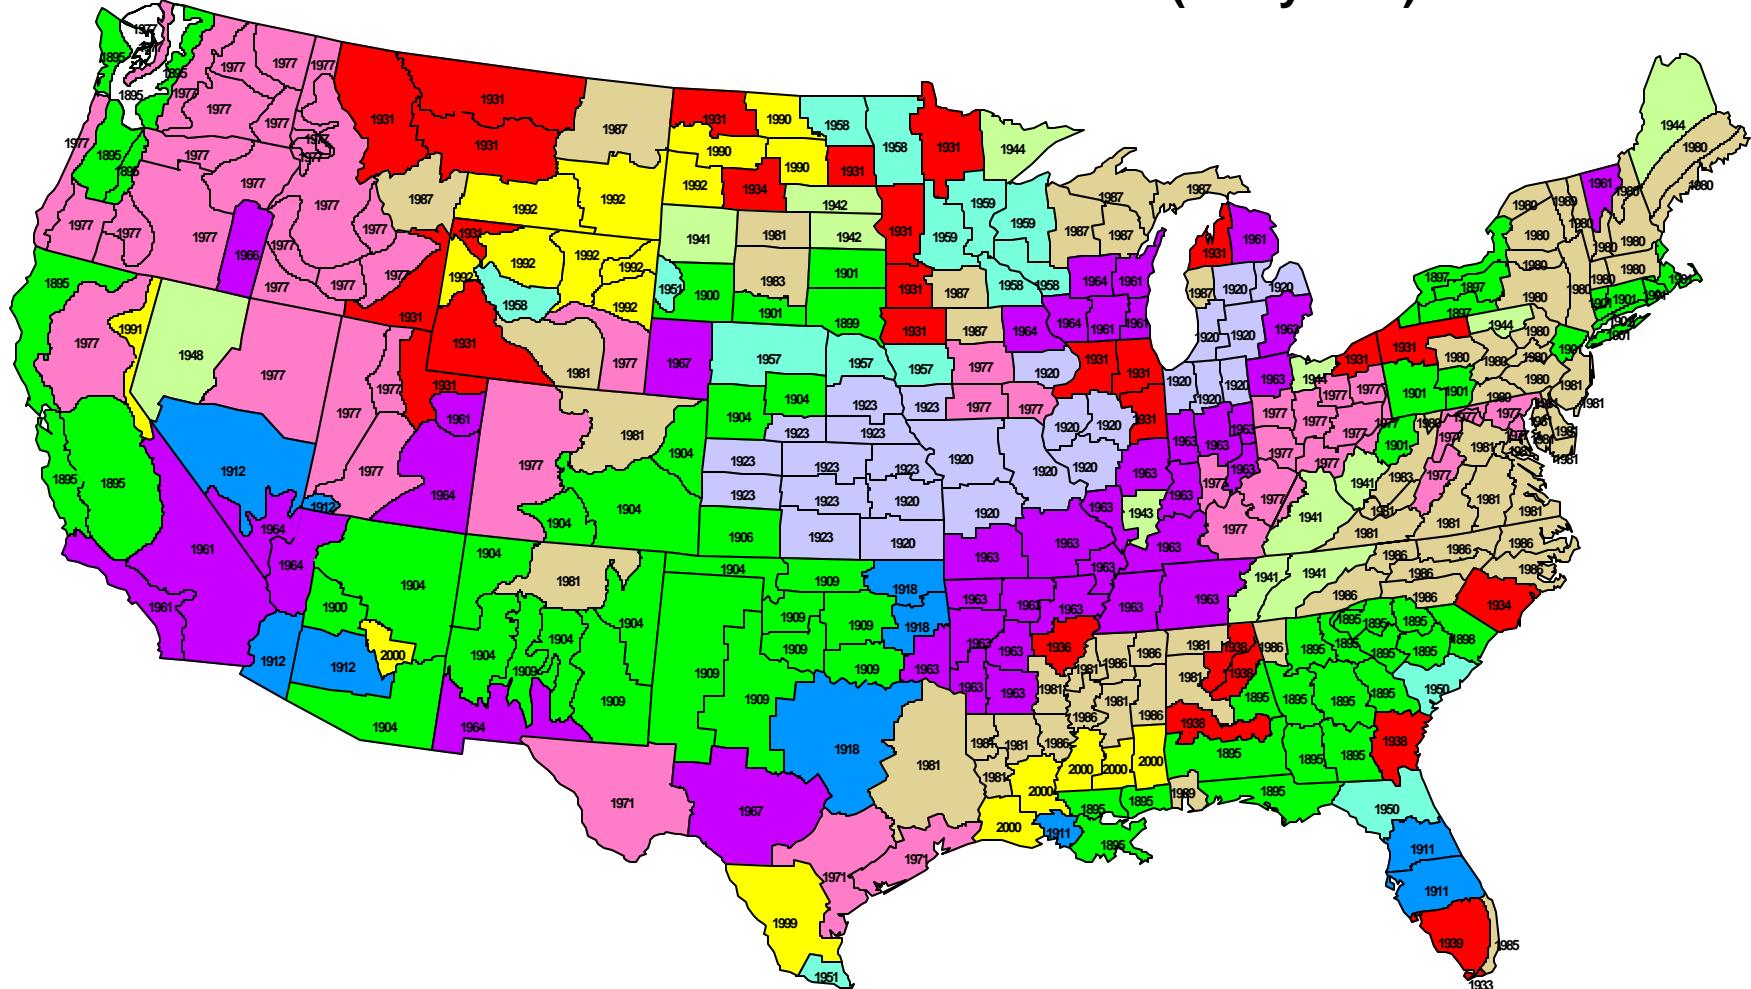

World Agricultural Outlook Board
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center (NCDC)
and is subject to revision.

DRIEST YEAR (DEC - FEB)

Climate Division Data from 1895-2000 (105 years)

LEGEND

	1895-1909		1920-1929		1940-1949		1960-1969		1980-1989
	1910-1919		1930-1939		1950-1959		1970-1979		1990-2000

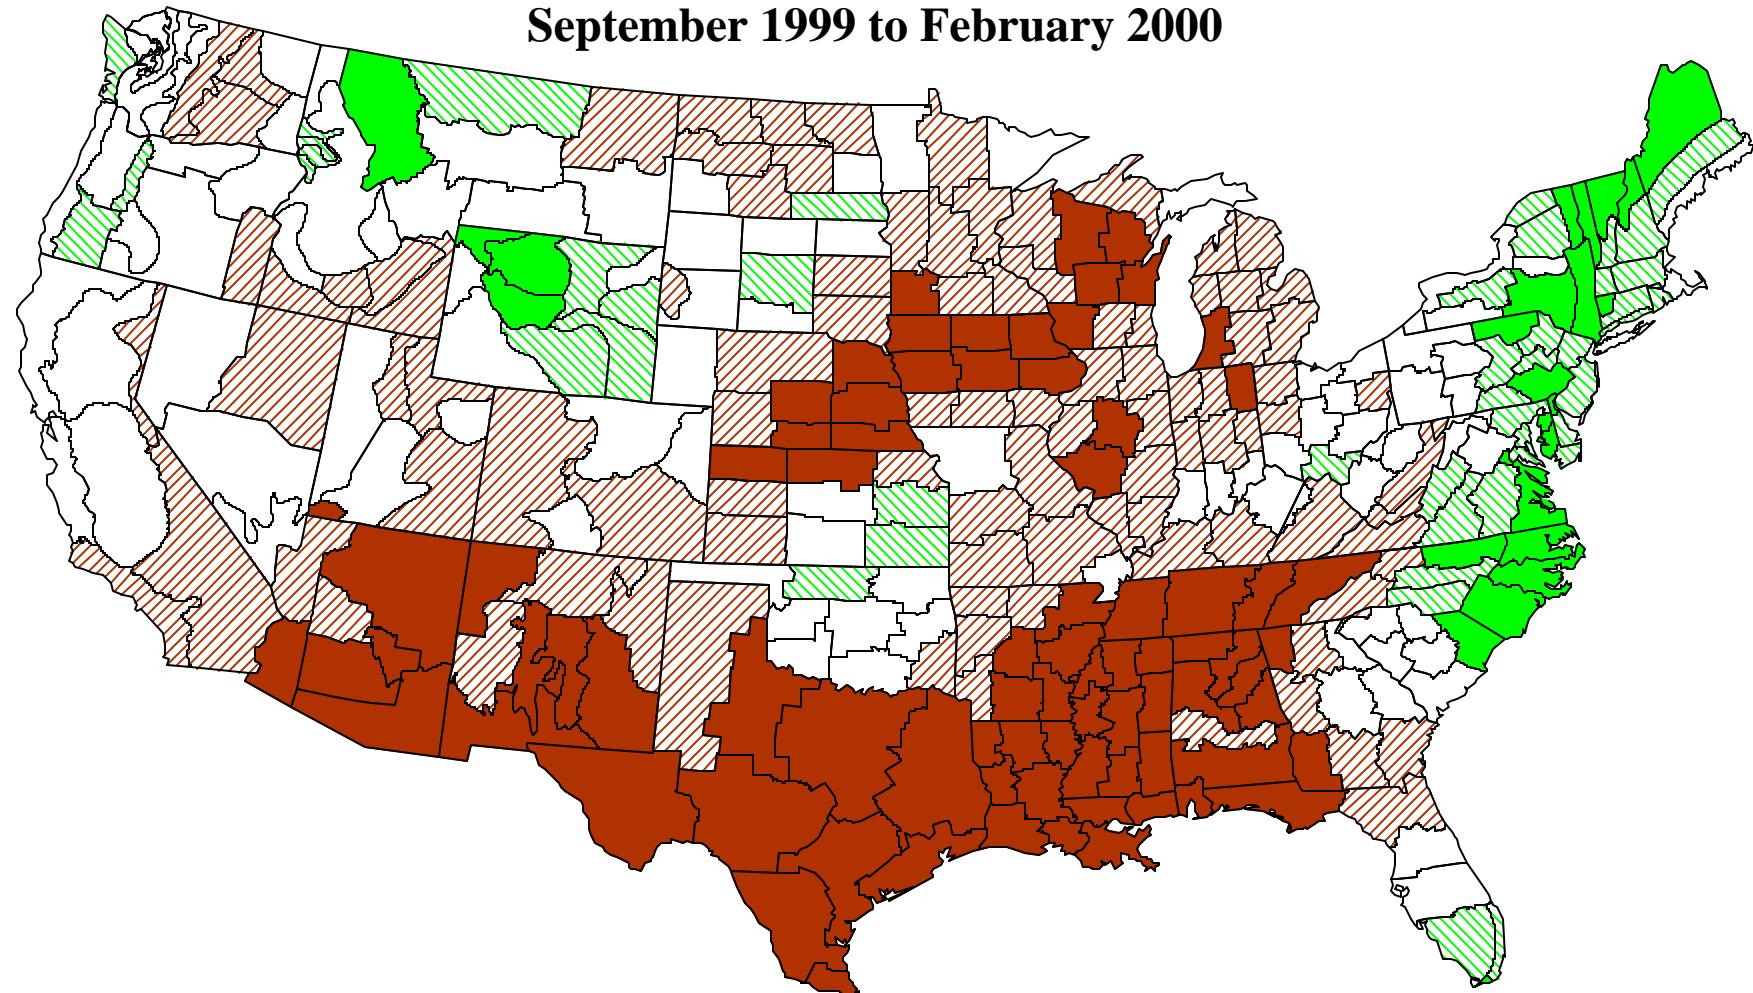

World Agricultural Outlook Board
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center (NCDC)
and is subject to revision.

U.S. PRECIPITATION RANKINGS

Climate Division Data from 1895-2000 (105 years)

September 1999 to February 2000

LEGEND

Extremely Dry (Less
than 10th Percentile)

Dry
(10-30 Percentile)

Near Normal
(30-70 Percentile)

Wet
(70-90 Percentile)

Extremely Wet
(Greater than 90th
Percentile)
